

SOUND

ENGINEERS!

Aplicación de un software para el acceso y gestión del conocimiento:

AUDACITY EN EL AULA

CEIP SAN SEBASTIÁN - EL BOALO
2010-2011

Magdalena Custodio Espinar y Marta Cervera

"contar cuentos enseña lengua al que los cuenta" (Artigal 2010)

Sound Engineers!

Hemos estudiado EL SONIDO

Objectives:

- To understand the main concepts about the sound and explain it
- To use ICT (computer and recording devices) as a means of learning about the sound: tone and pitch
- To memorize their roles in an interview
- To record their interviews using the software Audacity.

Contents:

- The unit of the Sound
- Audacity (Software to record their voices and play with them)
- Interview structure

Sound Engineers!

Hemos manipulado AUDACITY

- One group practises with Audacity while the other rehearses the interview. (15 min.)
- The journalists visit the laboratory of the scientists to have the interview and record it. (10 min.)

Sound Engineers!
