# Proyecto SNOWMAN

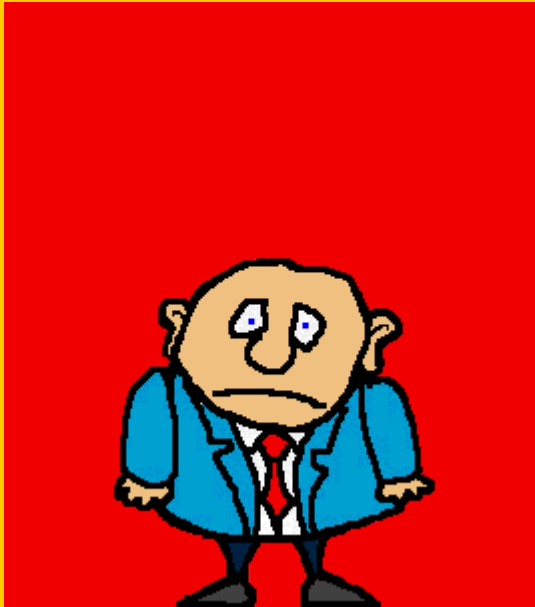

My snowman has a green cap.	Mine has a big brown hat.
My snowman's head is tiny.	My snowman has a big head.
My snowman doesn't have any buttons.	Mine has 8 buttons.
This snowman has a huge carrot nose.	This snowman has a small carrot nose.
Mine has very small red gloves.	This one has very big red gloves.

# ¿Cómo se hace?

- Modelo: Un ejemplo.
- Andamiaje: Esquema del trabajo.
- Organizadores gráficos: Para visualizar.
- Lista para auto-corregir
- Otro proyecto (solo para ti) para evaluar.

# Proyecto: My Favourite Animal

Para el alumno:  
Primeras experiencias

Para el profe:

## Oportunidad

para enseñar cómo  
usar las herramientas  
y la auto-corrección.

# Ejemplo

My favourite animal is the Humpback whale.

Animal name.	It is a Humpback whale.
What kind of animal is it?	It is a mammal.
How does it reproduce?	It has babies and feeds them mother's milk.
Where does it live?	It lives all over the world except the polar regions.
What does it eat?	It eats fish.
How long does it live?	A humpback whale lives about 45 or 50 years.
More information.	It sings beautiful songs that are very complex and creative.

My favourite animal is the *humpback whale* because it is very intelligent. It travels [all over the world](#)

I hope you like this video about whales.

Singing Humpback whale

More info

# Herramientas wiki/tarea

This is my **home page**! I can write about my favourite animal here.

First of all **I need to fill in the information** on the chart.

All I have to do is to click on the **Edit Button** next to the pencil and start writing! When I finish I need to click on **SAVE!**

Animal name.	It is a monkey.
What kind of animal is it?	It is a mammal.
How does it reproduce?	It has babies and feeds them mother's milk.
Where does it live?	It lives in the jungle and the zoo.
What does it eat?	It eats fruit, bugs, birds eggs and small animals.
How long does it live?	A monkey lives from 15 to 45 years.
More information.	It is a good climber and it is intelligent.

**Then I need to explain why this animal is my favourite animal.**

My favourite animal is the monkey because it is very intelligent. It climbs very well..

I can use the different edit tools to make my writing more attractive. **I can make it BOLD.** *I can make it Italic.* I can underline!

My **favourite animal** is the *humpback whale* because it is very intelligent. It travels all over the world.

If I click on the T with the artist's paints, I can change the type of writing I am using. I can **change the size**. I can **change the colour** of the writing. And I can **highlight**.

My **favourite animal** is the ***humpback whale*** because it is **very intelligent**. It travels all over the world

I can also copy and paste images from google.com and put them here. For example here is a picture of my favourite animal, the whale.

Check your sentences. They need to have capital letters, full stops, a person (subject) and a verb

Reply

JoyceRowan Dec 11, 2011 6:30 am

Watch out for spelling mistakes! Use a dictionary, use the vocabulary list, use the page called Think about spelling...

Reply

JoyceRowan Dec 11, 2011 6:34 am

Be very careful with verbs! Remember the -s at the end of verbs that talk about what a person or animal does everyday.

Reply

JoyceRowan Dec 11, 2011 6:22 am

Be sure to explain why this is your favourite animal. Tell at least two or three things about the animal that you admire.

# Proyecto TRINITY

## Para el alumno

- Es divertido.
- Es fácil de editar.
- Es una oferta 3 X 2.

## Para el profe

- Es facil de diferenciar.
- Es facil de corregir.
- Es facil de justificar.

# I am going to talk about rabbits because they are my favourite animals.

My five points of discussion are going to be

## 1. Why I like rabbits.

I like rabbits because they are my favourite animals. And I think that are interesting and cute and puffy.

## 2. Caring for rabbits.

Rabbits prefer carrots than hay. Why? Because rabbits like more, natural food than artificial food.

## 3. Baby bunnies.

They can have more than 40 bunnies

---

only on one year!!

When the rabbits are born they are blind, deaf and they don't have fur.

## 4. My pet rabbits.

The last time I had a rabbit it was since one year and a half ago. His name was Bolita.

When I grow up I will have many rabbits one of them I will call him carrots

## 5. Interesting things I have learn about rabbits.

I have just discovered a giant rabbit.

I am going to talk about: dinosaurs

**My favorite dinosaur is the Raptor.**

**2. THE Raptor is carnivorous.**

**3. The Raptor is great fighter.**

**4. The size of the Raptor is to 3 mts. long**
